DETAILED ACTION

Specification

1. The title of the invention is too generic to be descriptive. A new title is required that is clearly indicative of the invention to which the claims are directed.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 7-12 are rejected under 35 U.S.C. 102(b) as being anticipated by Sashiki et al (US # 4,508,186).

Conclusion

4. Claims 1-6 are allowable over the art of record. None of the art of record show, *inter alia*, a combinational weighing device which adds additional items from a pool hopper to a weighing hopper if the combined weight of the two hoppers does not exceed an overweight value and the combinational calculation involving the weighing hoppers is incomplete.
